# LINOVILLE. Closer to Nature!

## THE NATURAL CHOICE FOR PEOPLE AND THE ENVIRONMENT

Natural, versatile and sustainable. Combining over 100 years of tradition, craftsmanship and innovation, our linoleum offers a fresh approach to the flooring needs of today and lifestyles of tomorrow.

### A TRADITIONAL FLOORING MADE IN ITALY

Our linoleum is made in Narni, Italy, with the same original recipe since 1898 and sold across the world. Tarkett's teams have an intimate understanding of the ingredients in order to adapt manufacturing to the variations of each year's crop.

- Every linoleum is seasoned for about 25 days, individually sampled by our experts to ensure that its natural characteristics are at their best.
- Our linoleum was the world's first to be certified Silver Cradle to Cradle® for its sustainable approach.

### FOR A SUSTAINABLE FUTURE

Sustainability at Tarkett means developing quality of life solutions that benefit people and the planet over the long-term. We are committed to a circular economy where resources are continually reused and recycled - creating products today that become the raw materials of tomorrow. To get there we have adopted a closed loop circular design model, powered by **Cradle to Cradle®** principles. It helps us design products that contribute positively to the environment and people's well-being at every step of the product's life.

At Tarkett, our linoleum is an outstanding example of sustainable circular design:

- Environmentally-friendly ingredients, naturally bactericidal, with no added flame retardant.

- Single homogeneous construction giving greater resistance to wear and durability over time.
- Increased flexibility in handling and installing thanks to its cork ingredients.
- Naturally phthalate-free for a good indoor quality and low emission levels.

It demonstrates Tarkett's sustainable approach throughout - from how it's made in Narni to how people experience it across the world.

Our colour 100%  
linen is the ONLY  
linoleum awarded

**C2C GOLD**

GOLD

### AN EVERYDAY PRACTICE

At our Italian factory in Narni, thanks to a tri-generation system, we are able to produce, autonomously, 20% of electricity needs and 3% of heating and cooling power from a single device (a gas engine) with a significant reduction of energy purchase from external supplier and with a reduction of CO<sub>2</sub> eq. emissions, thus reinforcing our green performances to reach 2020 targets. The plant in Narni has been certified ISO 14067:2013 (Carbon Foot print) since 2014, and:

- vs 2010, we have reduced waste sent to landfill by **80%** - our objective is 0% waste by 2020
- **100%** of water needed for production is recycled, saving 80 million liters of water a year
- **17%** of the energy used is renewable, of which **9%** is internal production (biomass boiler, geothermal system and photovoltaic panels) and **8%** is external.

## LINOVILLE. Closer to Colour!

Drawing on Tarkett's on-going trends analysis and colour expertise, we have created a rich collection of linoleum designs to meet the ambitions of any architectural project.

### OPEN TO A WORLD OF COLOUR

Our ranges have been developed through consultation with architects across the world at every design phase. It has enabled Tarkett to perfect the right combination of colour, balance and structure for each design concept.

### EXPLORING THE NEEDS OF TOMORROW

To anticipate how needs will change, our design teams explore emerging architectural, cultural and lifestyle trends. We share these insights in our Tarkett Observer studies that identify key orientations to enhance interior building design and user experience in healthcare, education and retail environments of the future.

### TARKETT OBSERVER EDUCATION

In our latest trend analysis, we set out the fundamental contribution of colour and design in education. The colour universe of linoleum, in compact and acoustic solutions, can help create better learning environments from kindergarten, primary schools to university facilities.

### OUR DESIGN ORIENTATIONS:

#### HUMAN INSIDE

- Creating social cohesion for a stimulating environment that improves focus and concentration.
- An environment that plays with graphic and colour codes to give meaning to each area.

#### INTERACTIVE SPACE

- Flexible and modular design to change perceptions of learning and stimulate creativity
- Tonic and bright colour range with materials and motifs that bring the present into the future.

#### GREEN VALUE

- Creating a first contact with eco-responsibility and integrating environmental awareness.
- Greens, browns and neutrals and materials that evoke Nature. Re-usability and recyclability.

### TARKETT FLOORCRAFT

We offer a dedicated Floorcraft Service to create unique flooring concepts through highlighting visual inlays, colourways, zoning and directional design.

# LINOVILLE. Closer to Colour!

**VENETO** a collection of strong and subtle marbled designs in soft or intense pattern variations for a timeless effect.

Our Veneto range includes:

- « 20 Grands Classiques<sup>\*</sup> »: a selection of 20 timeless colours among the 72 Veneto, that are guaranteed to be in production until 2033. All colours are available in 7 different specifications and with Tarkett's multicolour welding rods xf<sup>2</sup> (more details on p.8).
- All shades of the colour spectrum in a combination of neutral and contemporary accents.

VENETO - GREY

VENETO - BEIGE

The real Nature: our Linoville Veneto Essenza 100% Linen is unique and reveals the authentic natural tones of linoleum's pure ingredients, without any pigments.

## LINOVILLE. Closer to Comfort!

Customize your acoustic for comfort and well-being

### LINOLEUM SILENCIO xf<sup>2</sup> - 18 dB

To reduce impact and ambient noise and enhance underfoot comfort and well-being, Tarkett's Silencio xf<sup>2</sup> offers an acoustic linoleum solution with sound reduction of 18 dB.

With a total thickness of 3.8mm, it's made in a two-layer construction of 2.5mm linoleum with a pre-bonded recycled foam underlay. Available in all design options.

### LINOLEUM ACOUSTIC CORK xf<sup>2</sup> AND ESSENZA - 15 dB

The natural acoustic option, easy to install and to live with, is offered on demand in the following options:

- a) Veneto xf<sup>2</sup> and Veneto Essenza: 2.5 mm linoleum with jute backing and Elafono cork underlayer
- b) Veneto xf<sup>2</sup>: 2mm linoleum with jute backing and Elafono cork underlayer.
- c) Style Emme xf<sup>2</sup>: 2.5 mm linoleum with jute backing and Elafono cork underlayer

These ready-to-install natural solutions provide a good acoustic insulation of 15 dB – the best in the market with similar products - as well as high resistance to indentation.

### ELAFONO – up to 15 dB

To increase acoustic absorption, Tarkett also offers Elafono – a 2mm 100% natural corkment underlay with a sound insulation up to 15 dB, depending on the thickness – that can be installed in combination with any compact linoleum flooring.

# LINOVILLE. Closer to Colour!

**GRANDS CLASSIQUES\*** a selection of 20 timeless colours that we guarantee in production until 2033.

20 colours are available in 7 different levels of traffic resistance with xf<sup>2</sup> surface treatment, and can be matched with our new range of multicolour welding rods for a perfect finish. This includes Sicuro R10 anti-slip and Essenza non-permanent surface finish. Grand Classiques designs are also available in acoustic option: Silencio 18 dB and Acoustic Cork 15 dB.

- 2.0mm xf<sup>2</sup>
- 2.5mm xf<sup>2</sup>
- 2.5mm Essenza
- 2.5mm xf<sup>2</sup> R10 slip resistant rating
- 3.2mm xf<sup>2</sup>
- Silencio xf<sup>2</sup> 18 dB
- Acoustic Cork xf<sup>2</sup> & Essenza 15 dB

## MULTICOLOUR WELDING RODS

For a virtually seamless finish, Tarkett has developed a new range of multicolour welding rods, designed to match the colour spectrum of our linoleum collection for the **Grands Classiques** colours. By including contrasting particles coordinated with the flooring's accent colour and design, they enable architects to achieve a continuous flowing flooring design. Now even easier and quicker to integrate, they can reduce installation time.

Plain welding rods versus Multicolour welding rods

## STYLE

a design range where  
the natural patterned beauty of linoleum  
meets modern style.

It's a subtle mix between contemporary colours and light marbled surfaces. Colours encompass cool and warm greys, shades of beige and brown, classic black and white, with vivid accent colours in red, green, yellow, orange and blue.

### SILENCIO xf<sup>2</sup>, ACOUSTIC CORK xf<sup>2</sup> & ESSENZA.

We offer SILENCIO xf<sup>2</sup>,  
ACOUSTIC CORK xf<sup>2</sup> and  
ESSENZA acoustic options  
with greater sound reduction  
and thermal insulation  
available across all Tarkett  
linoleum colour designs.

**STYLE EMME** a subtle marbling for refined and sophisticated styling.

**STYLE ELLE** a discrete directional linear design.

# LINOVILLE. Closer to Colour!

**ETRUSCO** a contemporary linoleum range featuring fourteen deep and radiant colours.

Thanks to its deep colours and plain design, Etrusco xf<sup>2</sup> can be combined easily with any other type of pattern or used alone, for great design effects.

## SILENCIO xf<sup>2</sup>.

We offer acoustic options with greater sound reduction and thermal insulation available across all Tarkett linoleum colour designs.

## LINOVILLE. Closer to Efficiency! A HARD-WEARING SOLUTION OVER ITS LIFETIME

For 150 years, linoleum flooring has been appreciated for its natural beauty, comfort, durability and versatility in most interior environments. Tarkett was an early innovator in surface treatments – adding xf<sup>2</sup>™ technology to its linoleum to improve resistance and simplify maintenance for significant cost savings in daily cleaning and care.

### xf<sup>2</sup> for improved performance

Now, Tarkett is introducing xf<sup>2</sup> - its second generation surface treatment - increasing resistance for even longer durability and reducing maintenance for a highly cost-effective flooring.

- Micro-reinforced polyurethane UV treatment that seals and hardens the surface to make it more resistant to dirt and daily wear and tear.
- A smooth matt appearance that prevents accumulation of dirt or stains.
- No need for polish, stripping and polymer waxing over the lifetime of the surface\*.

### Superior resistance to abrasion

No other linoleum is as resistant to abrasion. We have conducted extensive internal and external laboratory testing to evaluate the resistance of xf<sup>2</sup> linoleum to abrasion over time. With the help of an electron microscope and 3D surface profilometer we are now able to see, magnified, the proof of the unbeatable resistance of xf<sup>2</sup>. Tests were done on Competitors A, B and Tarkett samples, before and after dry abrasion by a rotation tumbler machine equipped with black pads. All linoleum are PU UV coated, following producers declarations. After 30 minutes, the test machine began to degrade the finish of Competitors' Samples A and B. Tarkett's test continued for one hour without visible finish degradation.

### Resistance of xf<sup>2</sup> welding rods

The new formula developed by Tarkett enables us to produce welding rods – both multicolour and traditional unicolour - that offer exceptional resistance to all kinds of soiling and abrasion.

After abrasion competitor A and B are destroyed when Tarkett xf<sup>2</sup> is still intact.

Source: university of termi

\* Providing soil barriers are correctly put in place, regular maintenance is operated (daily vacuuming and mopping), furniture have appropriate leg coverings and daily surveillance.

# LINOVILLE. Closer to Efficiency!

In addition to optimal durability and wear and tear resistance, Tarkett's new xf<sup>2</sup> surface treatment ensures an outstanding performance against soiling, staining to improve hygiene and simplify cleaning and maintenance. And we set out to prove it.

## INHIBITING BACTERIAL GROWTH

Flooring contributes to ensuring hygienic environments in public buildings – from schools to hospitals where stain resistance to medical chemicals is mandatory for flooring materials.

Linoleum xf<sup>2</sup>, with its sealed smooth surface, inbuilt resistance and naturally bactericidal qualities, can offer an effective solution.

## REDUCED LIFE CYCLE COST FOR LINOLEUM xf<sup>2</sup>

The cost of the initial investment and installation normally represents just a small part of flooring's total life cycle cost. The rest is cleaning and maintenance. As the Linoleum xf<sup>2</sup> doesn't require first surface treatment after installation, neither regular wax or polish maintenance during its lifetime, consumption of water and detergent decrease significantly and give Linoleum xf<sup>2</sup> a very favorable life cycle cost.

Compared with Linoleum flooring treated with a non-permanent acrylic finish, payback on the extra investment could come within 2 months\*.

For more information, please contact your Tarkett representative.

*\*Case study: Classrooms of 1,300m<sup>2</sup>, comparison between untreated Linoleum and Linoleum xf<sup>2</sup>. For 20 years life time, respecting cleaning and maintenance recommendations: entrance matting, regular cleaning, etc.*

### Savings:

- 3.7% of water saved
- 25% less detergent
- 8.9% less electricity power
- 3.8% less manpower

## SIMPLIFYING CLEANING AND MAINTENANCE

The reinforced surface of linoleum xf<sup>2</sup> means no polish, stripping and polymer waxing over the lifetime of the product\*\*. As a result, it requires less frequent, less intense cleaning and maintenance and reduces use of water, energy and chemical detergents for a better environment footprint.

\*\* Providing soil barriers are correctly put in place, regular maintenance is operated (daily vacuuming and mopping), furniture have appropriate leg coverings and daily surveillance.

## CLEANING AND MAINTENANCE: NO POLISH, NO STRIPPING, NO WAX NEEDED\*

Modern day-room cleaning aims to reduce wet cleaning procedures and replace them with drier cleaning techniques. For example, the use of centrally laundered pre-impregnated mops and the wide application of appropriate machines. This makes work more effective and easier for the cleaning staff, and minimizes environmental impact. Less cleaning chemicals and less fresh water are used.

### 1 Initial site cleaning

After installation initial site clean is required: vacuum, sweep or damp mop the area to remove building dust and loose dirt. A combined scrubber/dryer with brushes or red pads cleans large areas very effectively. Use detergent with a low pH (3-5).

xf<sup>®</sup> will be not removed by any cleaning operation.

### 2 Daily and regular cleaning

Remove dust and dirt with yarn or microfiber mops or disposable mops, dry or impregnated or vacuum the floor.

Use a mop dampened with water or detergent solution to remove spots. It is essential that water does not stay on the floor or leave a film. The floor should be virtually dry after 15-20 seconds. If required spray clean the floor with a rotary machine and red pad.

### 3 Periodic cleaning

#### Combined machine

Use diluted neutral detergent. Speed low 150-250 rpm or higher. Red/brown pads are usually most suitable.

or

#### Machine scrubbing + Wet vacuuming + Dry buffing

- Apply a cleaning solution (fairly strong, pH 10-11, after dilution) and allow to act for 5-10 min.
- Clean the floor using a heavy-duty single disc scrubbing machine (red pad). Vacuum up the dirty water immediately.
- Rinse with clean water and allow the floor to dry.
- If necessary dry buff (red pad) to restore gloss. Suitable speed: 500-1000 rpm.

Sharp edged /not maintained furniture feet, sand, pebbles, permanent push and drive movements on the same area will damage every kind of flooring over the time.

## TRAINING

We provide a range of on-demand training for distributors, installers and maintenance teams on Tarkett products, installation and maintenance techniques as well as individual installation of key products for demonstration and discussion with customers.

We can deliver these worldwide in our own training facilities, such as the Tarkett Studio facility near Paris, or at customer sites. Our international technical advisers can also provide personalised training or support at the start of installation on building projects.

For more information about installation training or on-site assistance in your area, contact your Tarkett representative.

\* Providing soil barriers are correctly put in place, regular maintenance is operated (daily vacuuming and mopping), furniture have appropriate leg coverings and daily surveillance.

# TECHNICAL SOLUTIONS

## SD STATIC DISSIPATIVE xf<sup>2</sup>

A safe, sustainable flooring designed for static control near computer, electronic and telecommunications equipment in medical, manufacturing, education and industry environments. Available in rolls and cuts for raised floors.

## CONDUCTIVE xf<sup>2</sup>

### THE ONLY CONDUCTIVE LINOLEUM

A safe and sustainable flooring designed for a stable and reliable conductive control. The natural solution for education, healthcare and office environments, especially for areas like server and computer rooms, laboratory and electronic equipment in operating theatres. Available in rolls and cuts for raised floors.

## VENETO SICURO xf<sup>2</sup> R10

R10 slip resistant rating: combines the need for a secure grip with the ease of cleaning of xf<sup>2</sup>. Ideal for building entrances. Available in rolls and cuts for raised floors.

## VENETO B<sub>fl</sub> xf<sup>2</sup>

2.5mm Linoleum B<sub>fl</sub> fire rating, without flame retardants. Bfl by its natural ingredients. Ideal for escaping areas. Available in rolls and cuts for raised floors.

## VENETO ESSENZA

The traditional factory-applied non-permanent finish, PU free.

## SILENCIO xf<sup>2</sup>

2.5 mm linoleum with jute backing and recycled polyurethane foam underlayer, giving an excellent sound reduction of 18 dB.

Silencio is available on all colors and designs. Available in rolls and cuts for raised floors.

## ACOUSTIC CORK xf<sup>2</sup> / ESSENZA

2 or 2.5 mm linoleum and natural Elafono (cork underlayer) giving an excellent sound reduction of 15 dB, the best in the market with similar products, as well as a high resistance to indentation.

Product on demand in the following options:

- a) Veneto xf<sup>2</sup> and Essenza: 2.5 mm linoleum with jute backing and Elafono cork underlayer
- b) Veneto xf<sup>2</sup>: 2mm linoleum with jute backing and Elafono cork underlayer
- c) Style Emme xf<sup>2</sup>: 2.5 mm linoleum with jute backing and Elafono cork underlayer

Available in rolls and cuts for raised floors.

## ELAFONO

2.0 mm traditional, 100% natural, corkment underlay to be installed in combination with any compact Tarkett linoleum to get added sound reduction (up to -15 dB, depending on the product). Available in rolls.

# ACCESSORIES

## LINOLEUM SET-ON SKIRTINGS (SOS)

- available in: 6/8 cm high x 220 cm long

Lino SOS

Lino SIS

Lino SIS outer angle

## LINOLEUM SET-IN SKIRTINGS (SIS)

- available in: 6/8/10 cm high x 10 cm width x 240 cm long
- also possible with 20 cm width onto the floor
- SIS outer corner available in:  
6/8/10 cm high x 10 cm width  
(size of the corner 13x13 cm)
- also possible with 20 cm width onto the floor
